Chatbots for Storytelling

When Chatbots Are Enough

- ✍ Writing support
 - Brainstorming, plot creation, rewriting, grammar help
- 🎓 Teaching prep
 - Creating story prompts, lesson plans, questions
- 🗣 Dialogue generation
 - Creating conversations, role-play scripts
- 📖 Concept teaching
 - Turning abstract topics into stories (e.g., “cell division as a space mission”)
- 💬 Interactive reflection
 - Generating student reflection questions in story form

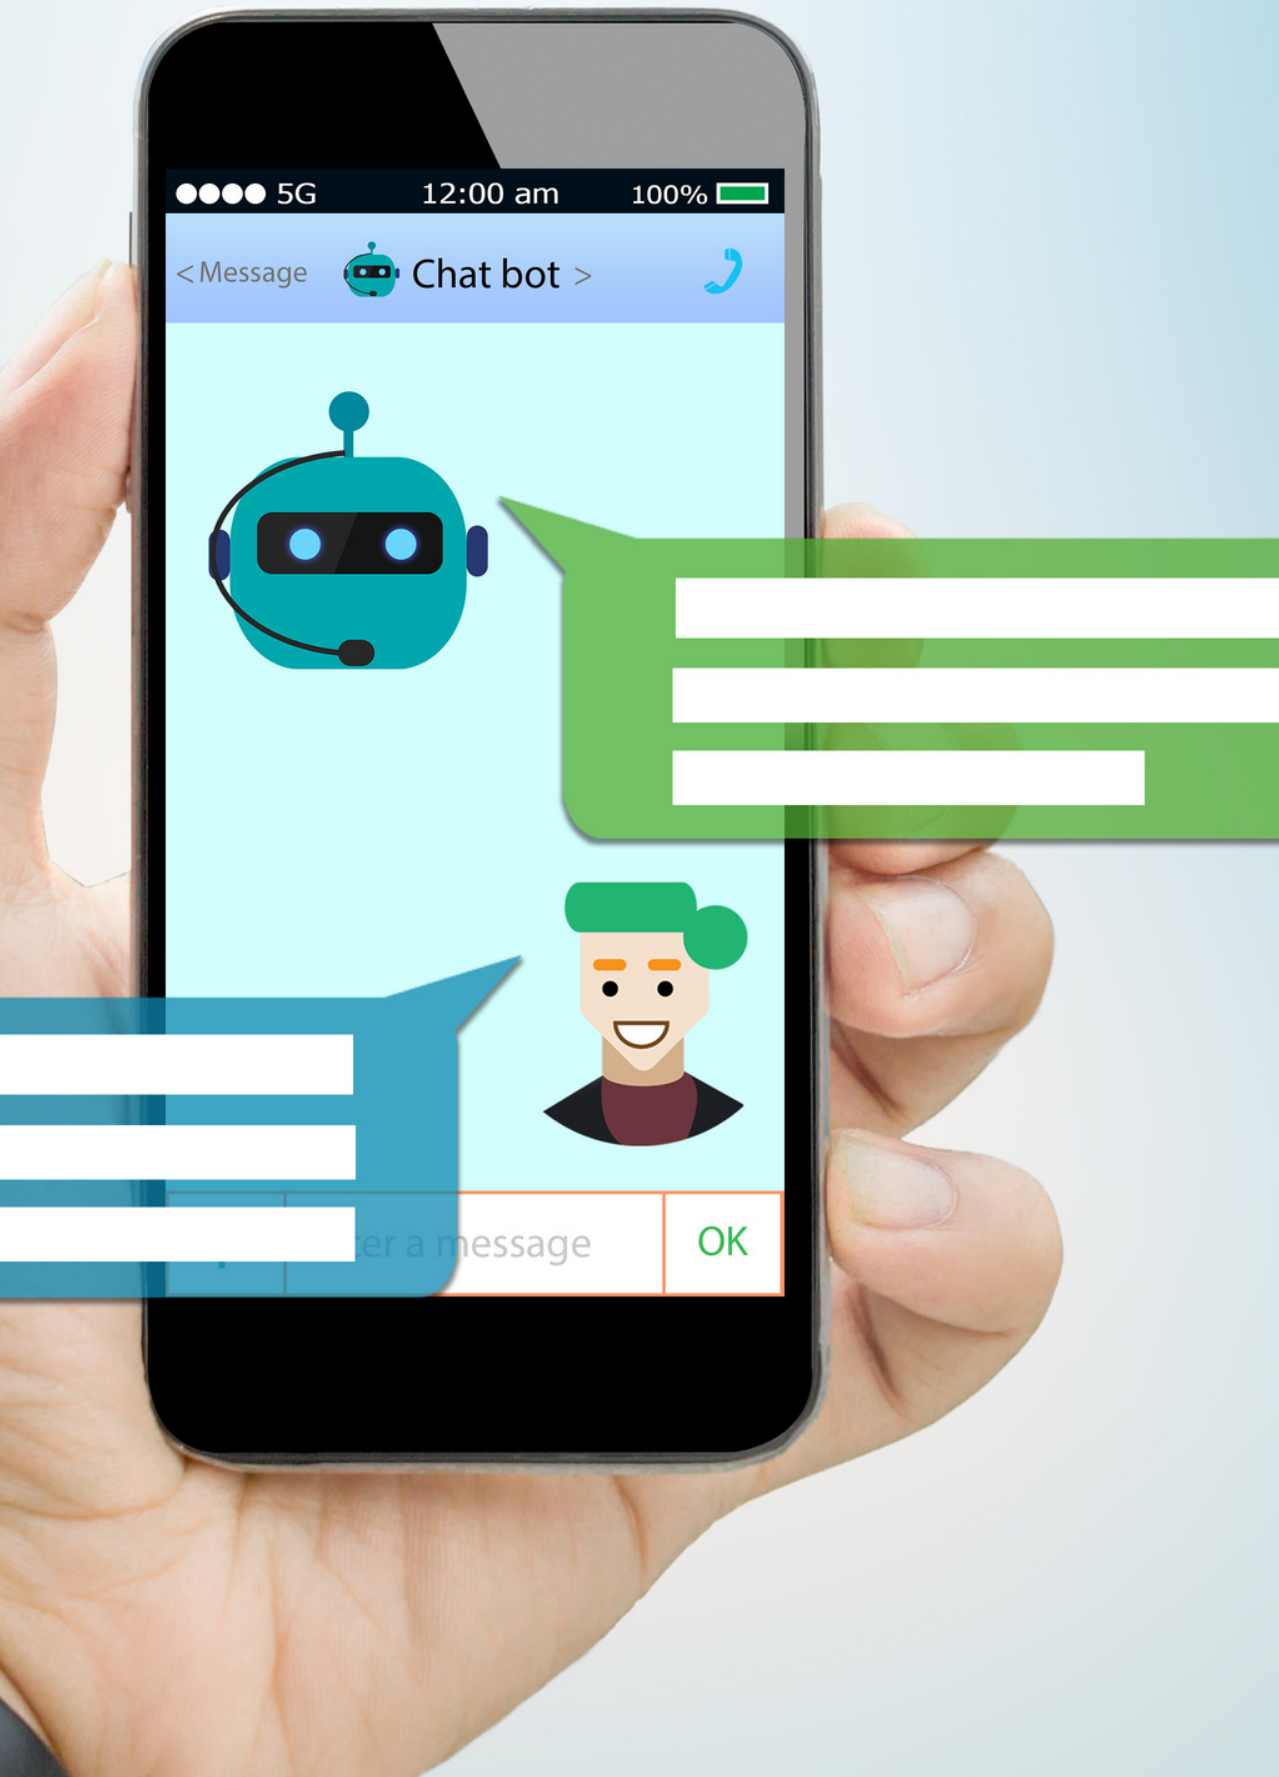

Turn Any Topic into a Mini-Story

- Goal:
 - Add narrative structure to any lesson
- How:
 - Prompt ChatGPT:
 - *"Explain the greenhouse effect as a short story involving a photon and a CO₂ molecule."*
- Integrates storytelling into content delivery

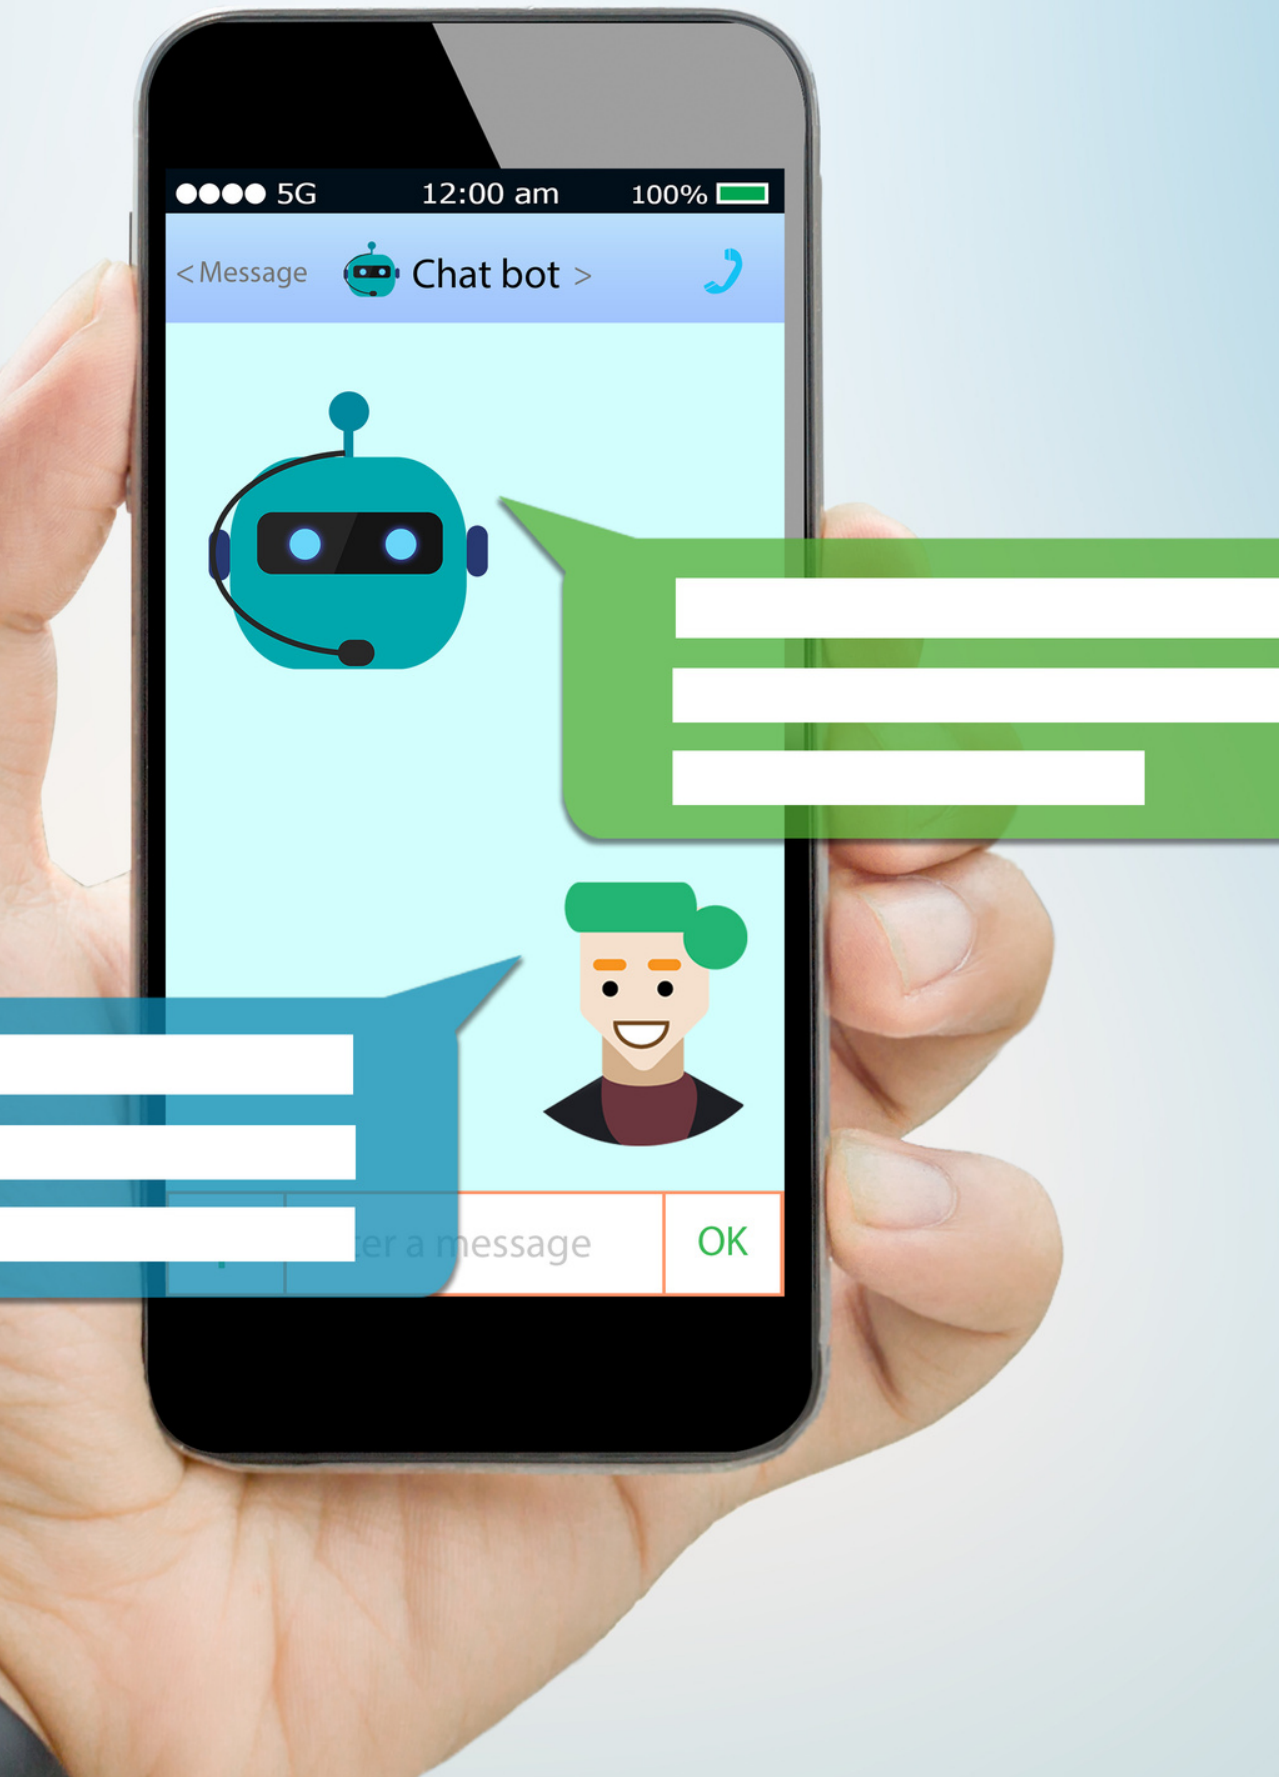

Personalize Examples for Students

- Goal:
 - Make content relatable for different student groups
- How:
 - Prompt ChatGPT:
 - "Give me an analogy for photosynthesis that makes sense to football fans."
- Increases engagement through context-based learning

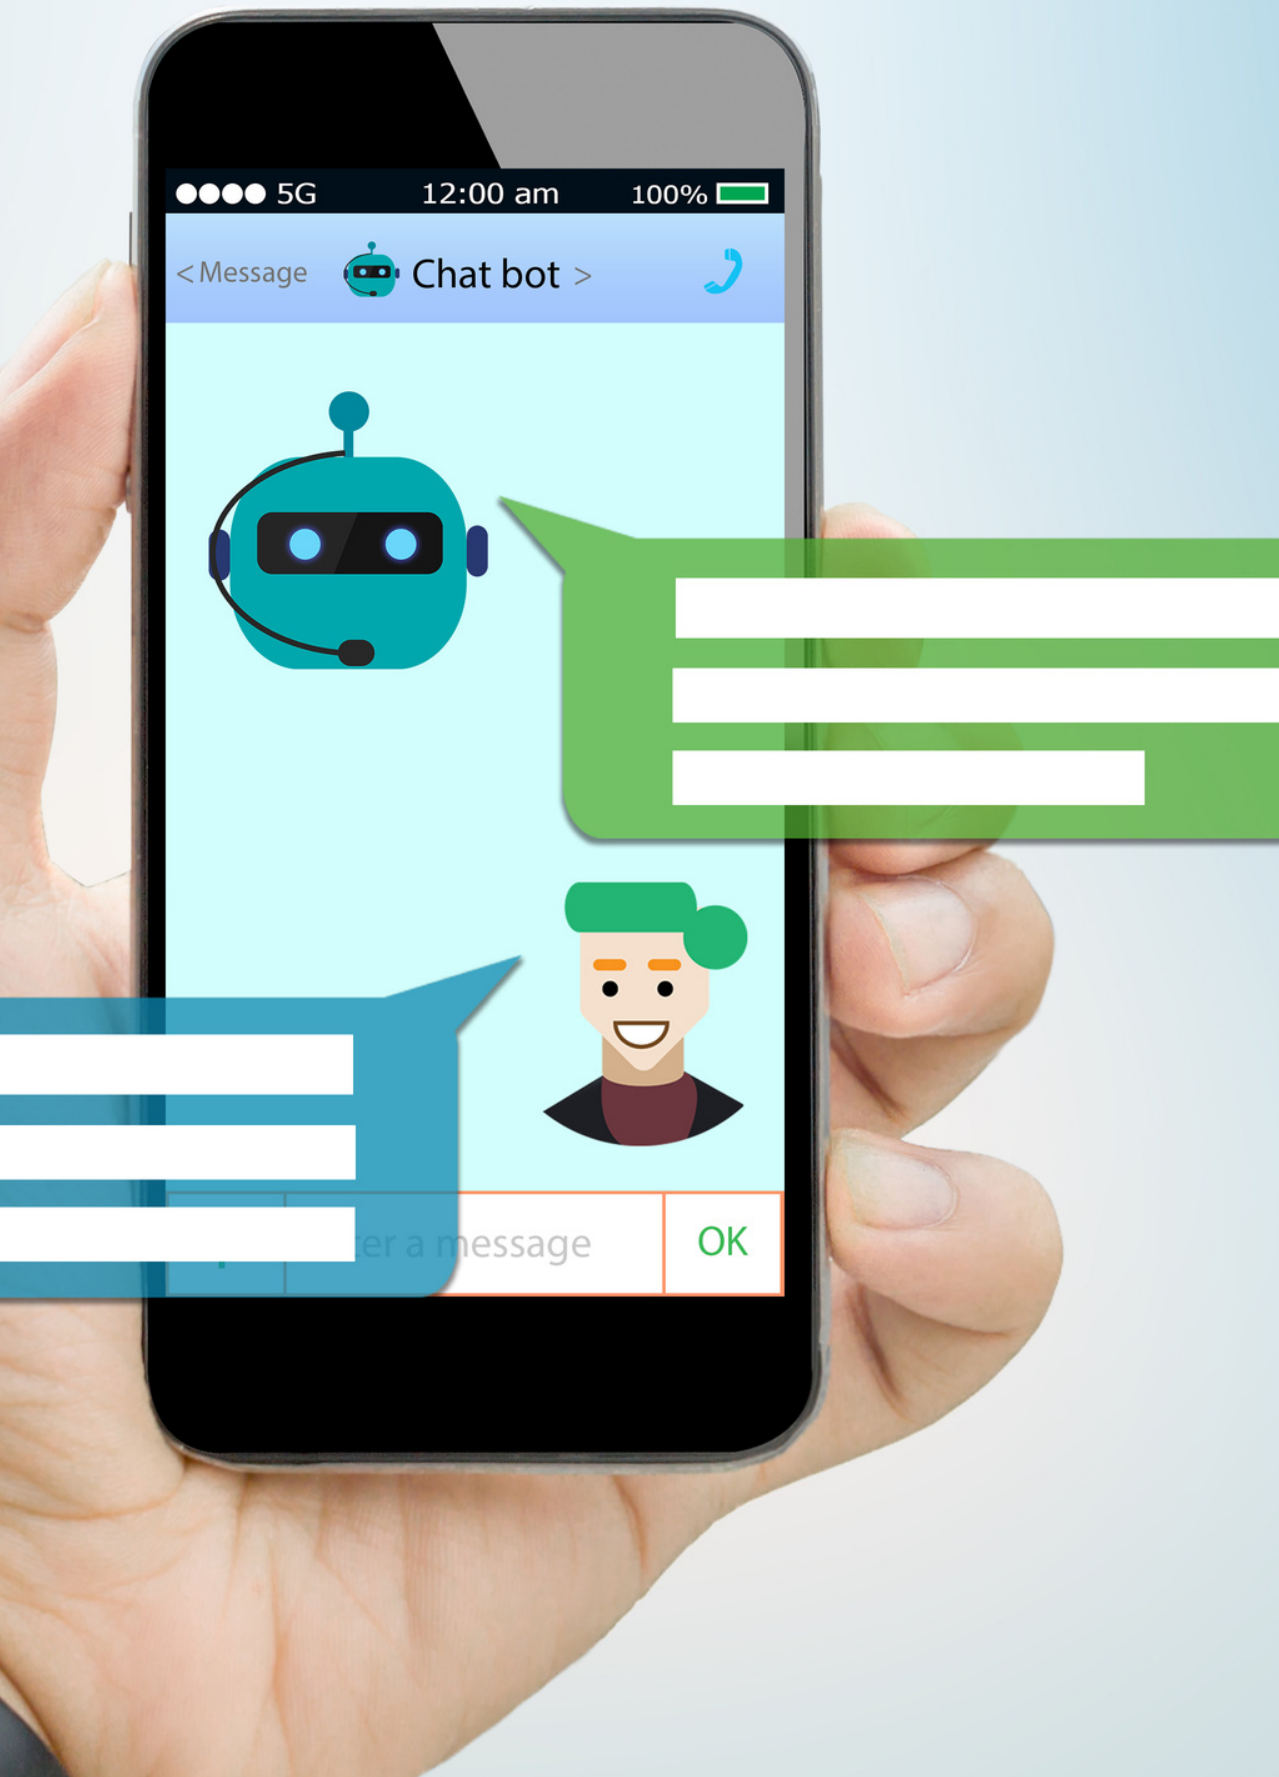

Generate Quick-Start Story Hooks

- Goal:
 - Begin your lesson with a compelling “hook”
- How:
 - Prompt ChatGPT:
 - “Write a 3-sentence dramatic intro to a lesson on fractions using a time-travel story.”
- Captures attention, sparks curiosity

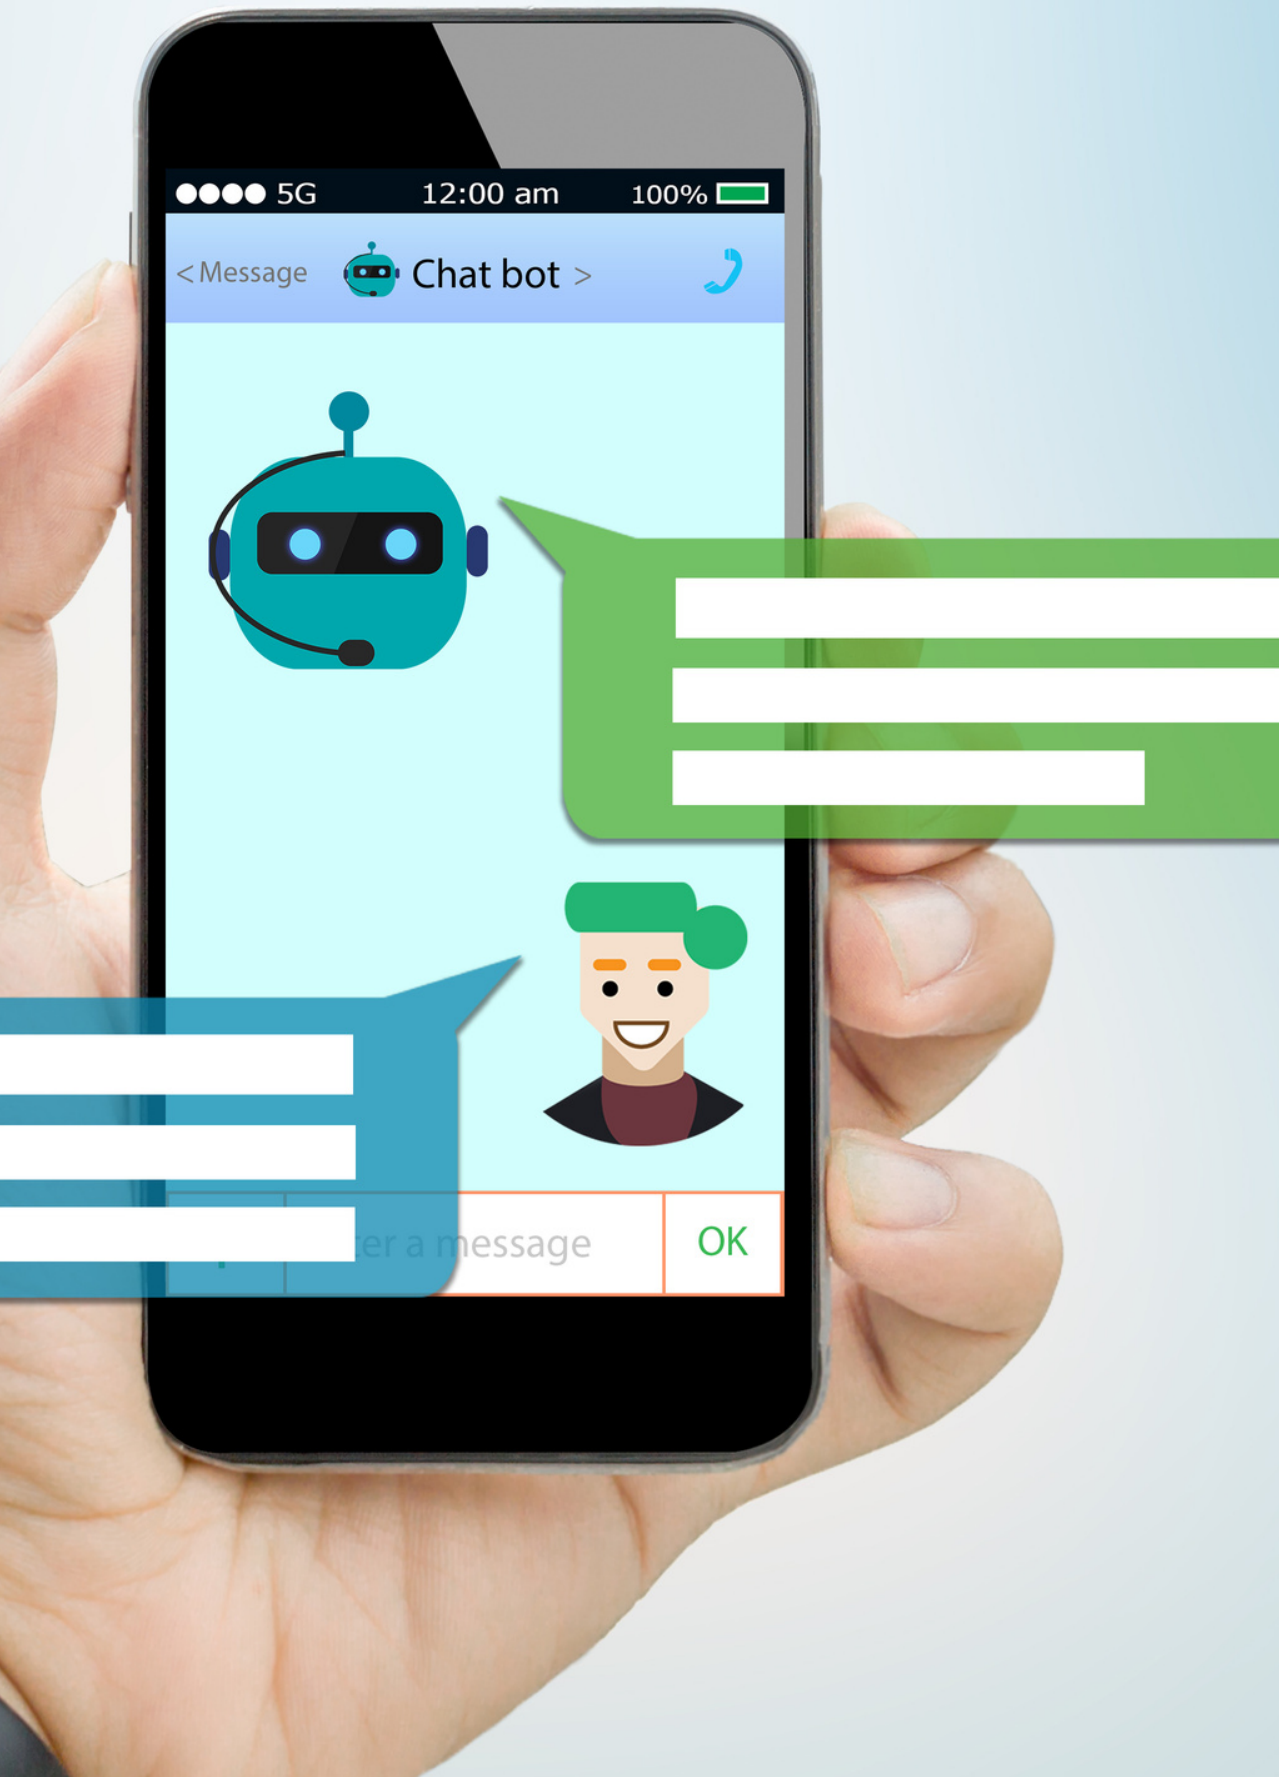

Create Instant Character Dialogues

- Goal:
 - Add personality and tension to storytelling-based lessons
- How:
 - Prompt ChatGPT:
 - "Write a dialogue between two rivers arguing over pollution levels."
- Brings abstract concepts to life

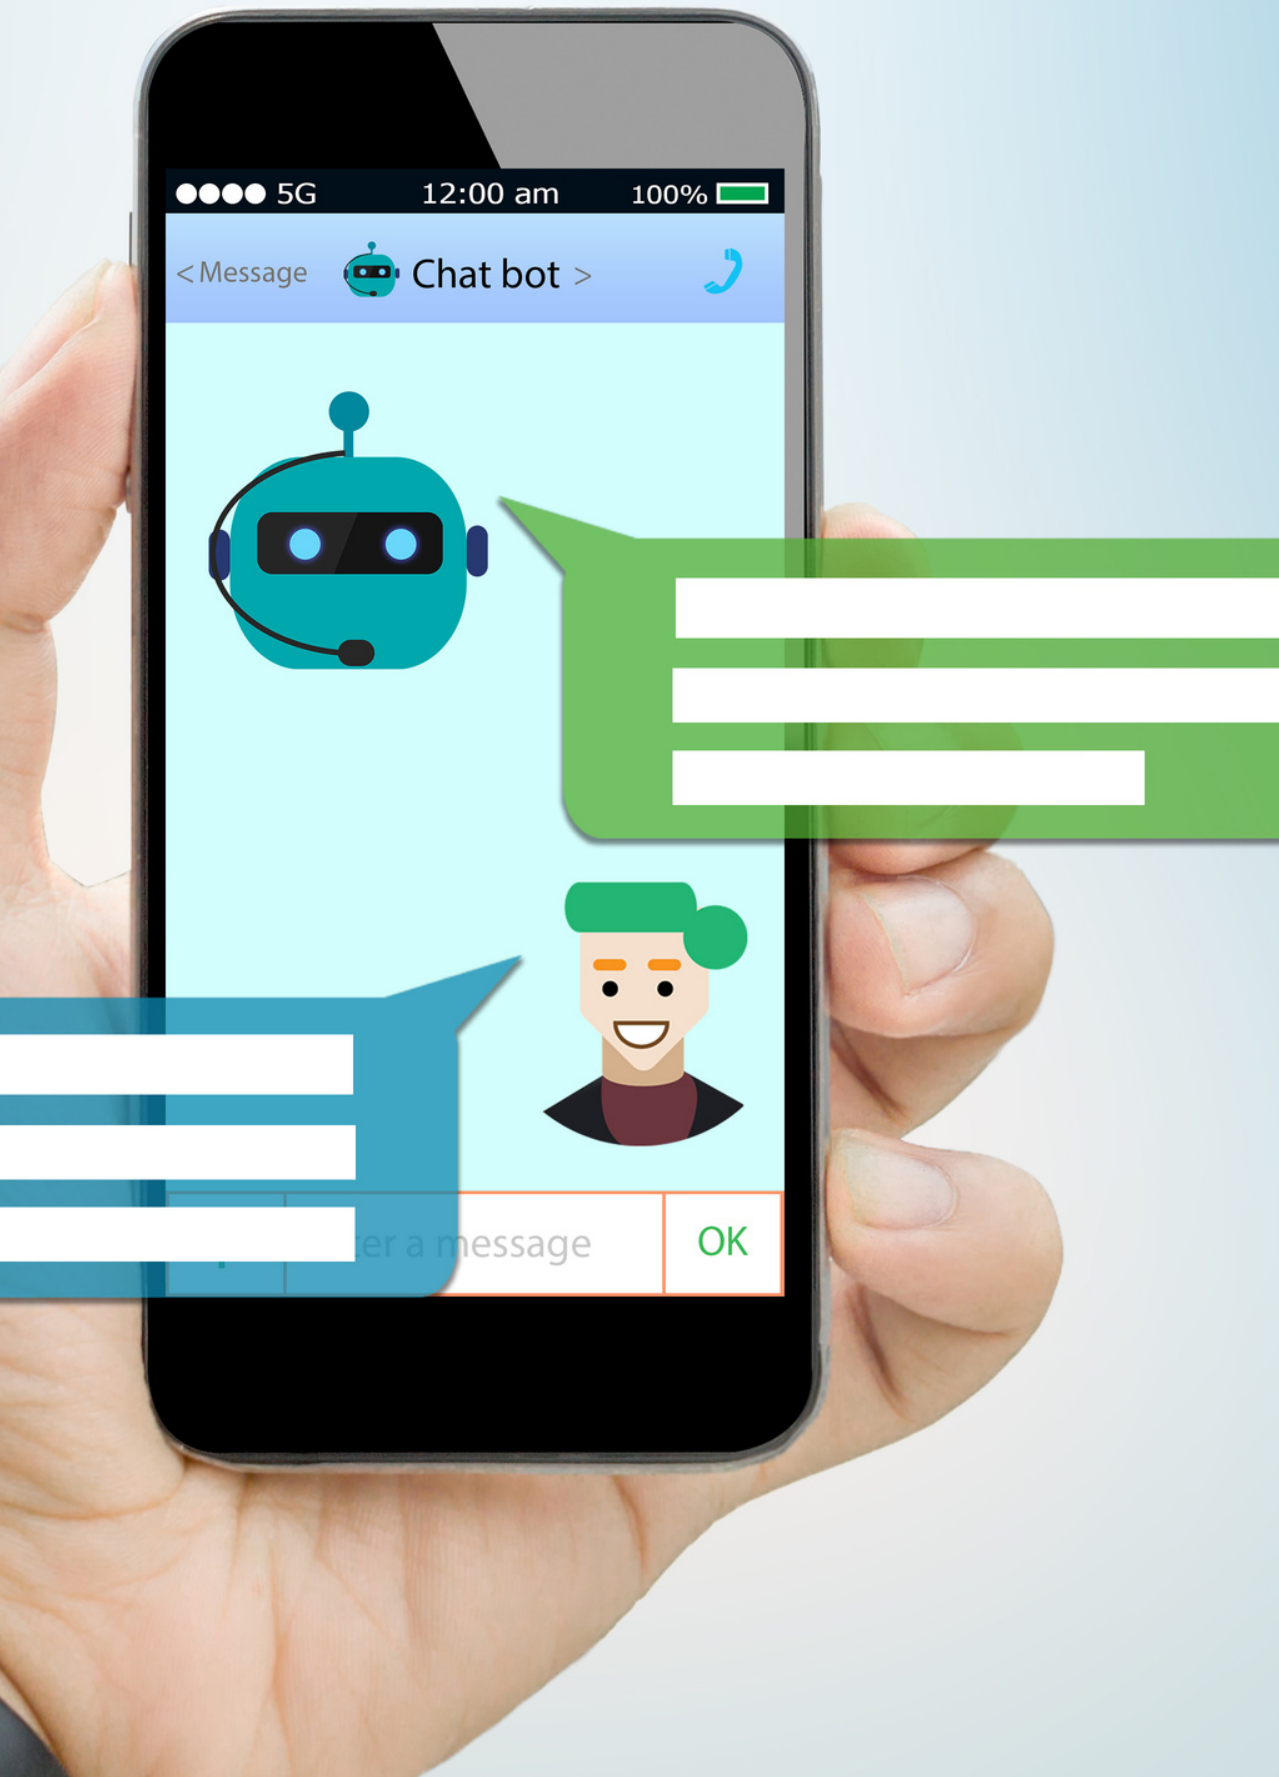

Build a Classroom Story Generator

- Goal:
 - Let students co-create stories using AI
- How:
 - Set up a shared ChatGPT prompt like:
 - "Let's build a story! First, choose a setting: castle, jungle, spaceship..."
- Boosts collaborative, creative storytelling

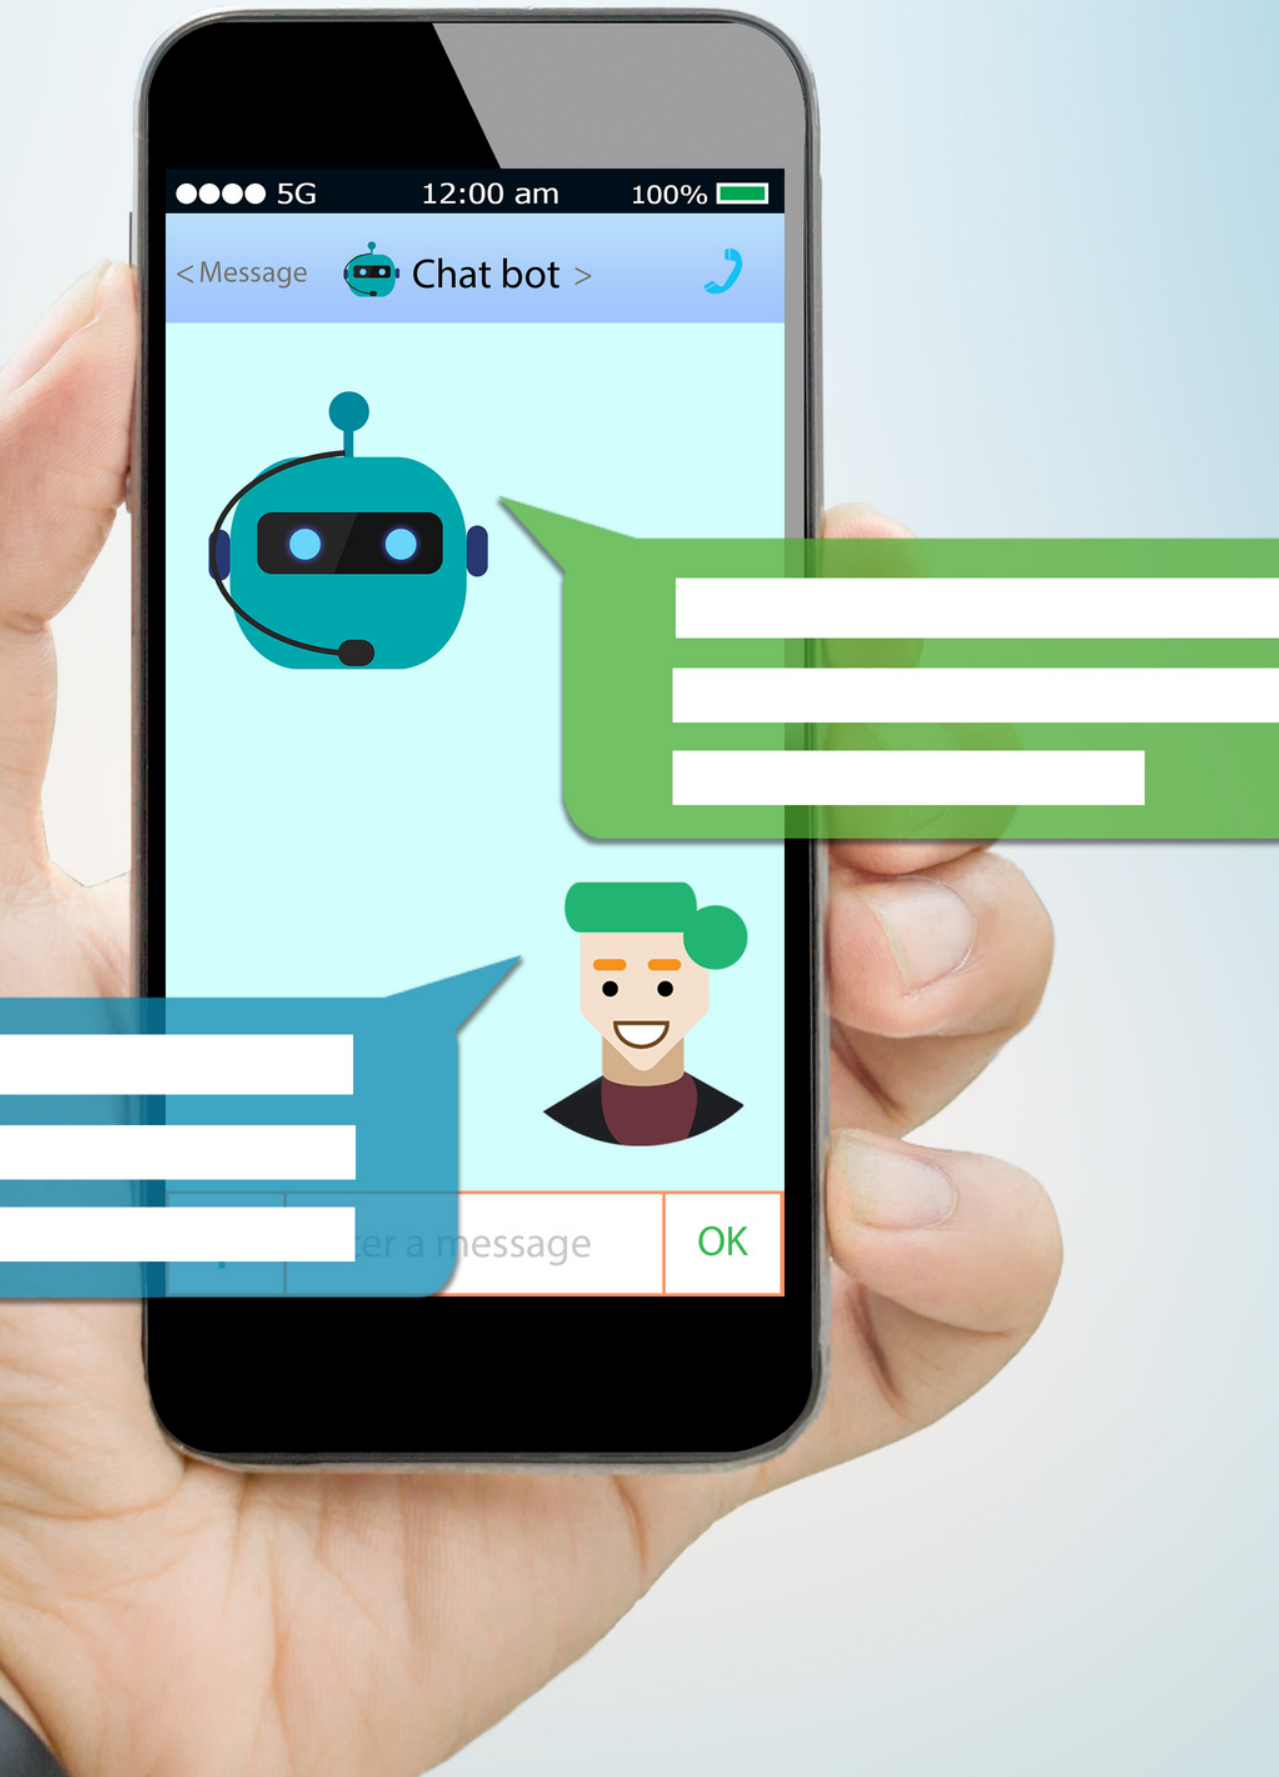

Rewrite Lessons as a Comic or Script

- Goal:
 - Make content ready for visual storytelling
- How:
 - Prompt ChatGPT:
 - "Turn the causes of World War I into a short 4-panel comic script with student-friendly dialogue."
- Prepares content for digital storytelling tools (e.g., Canva, Genially)

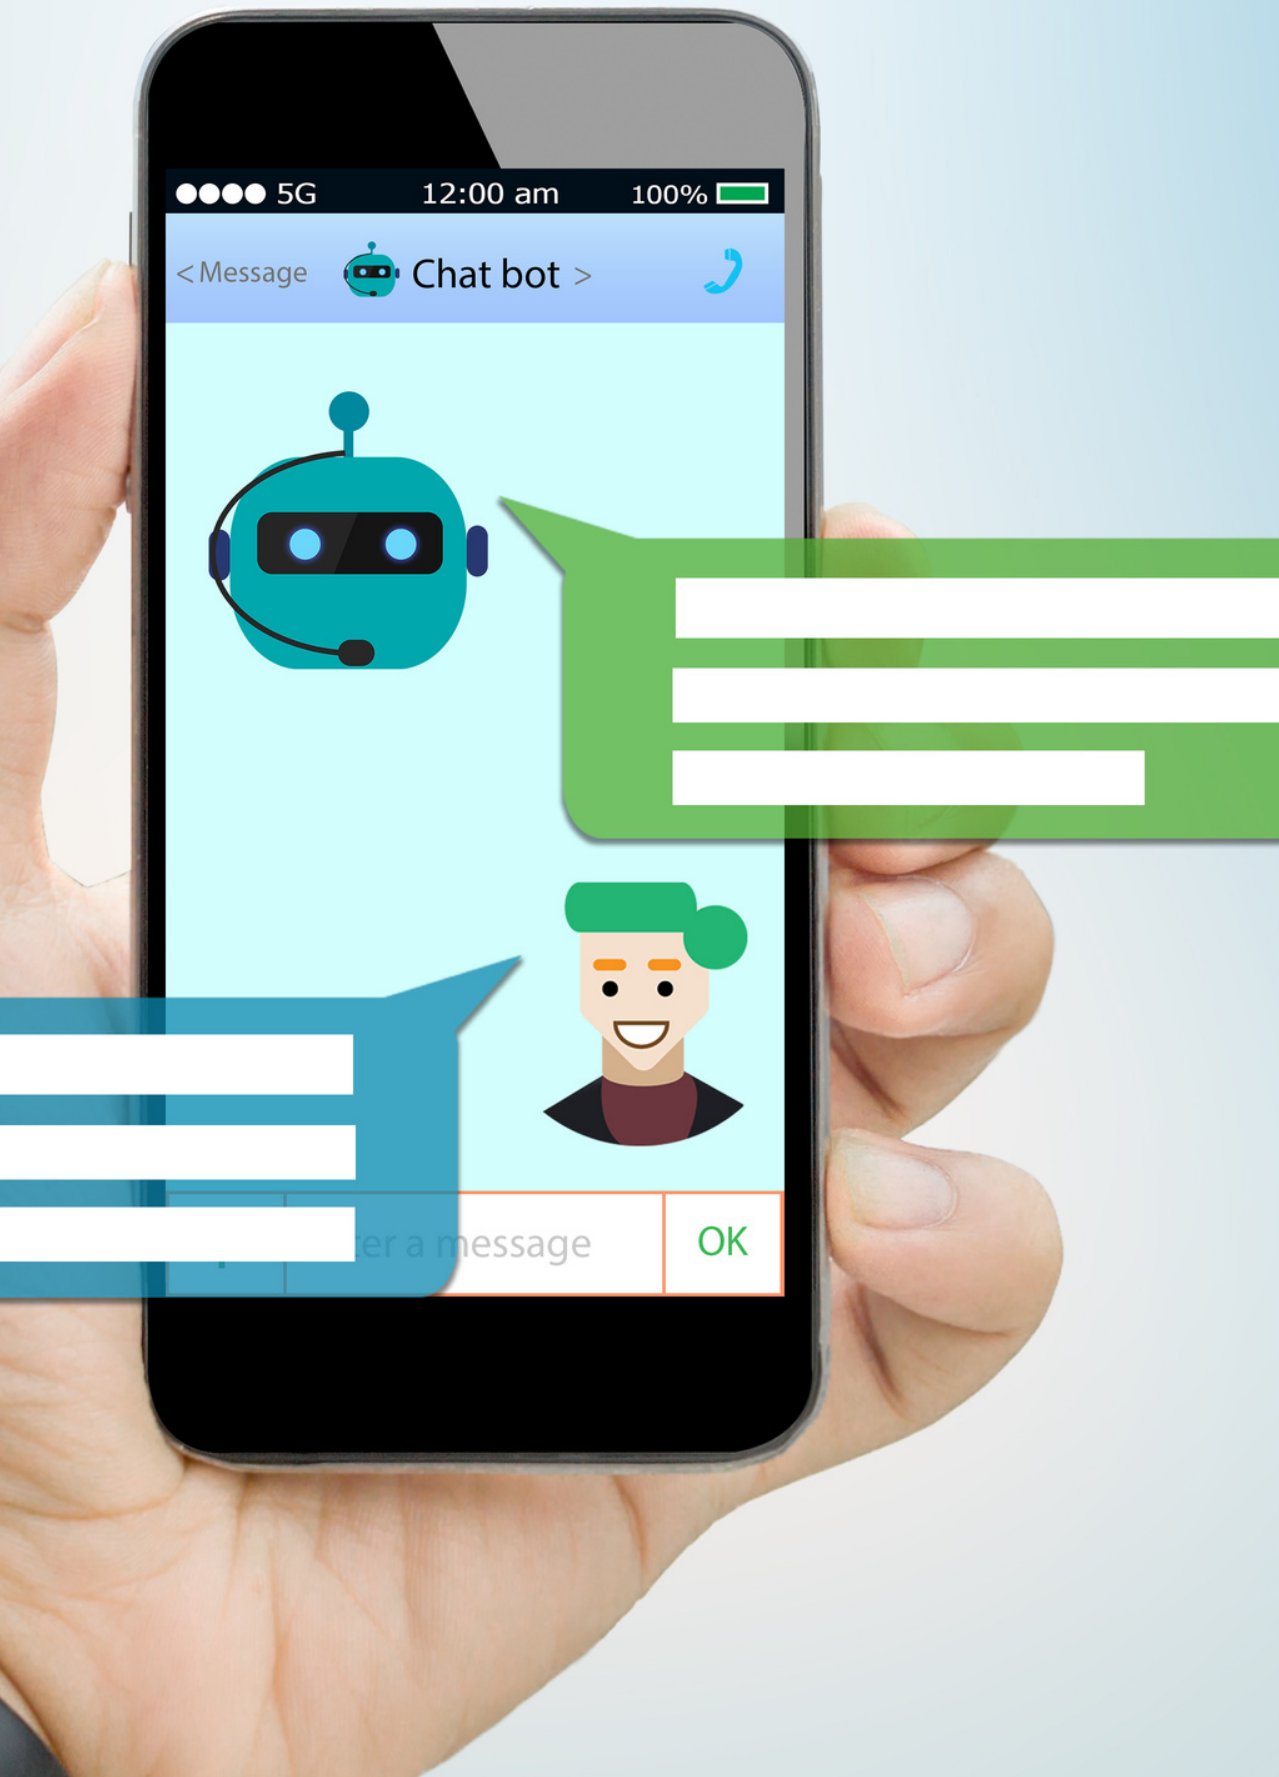

Create Story-Based Reflection Prompts

- Goal:
 - Encourage deeper student thinking
- How:
 - Prompt ChatGPT:
 - "Give me reflection prompts in story format — e.g., 'If you were the main character of today's lesson, what challenge would you face?'"
- Supports emotional connection and critical thinking

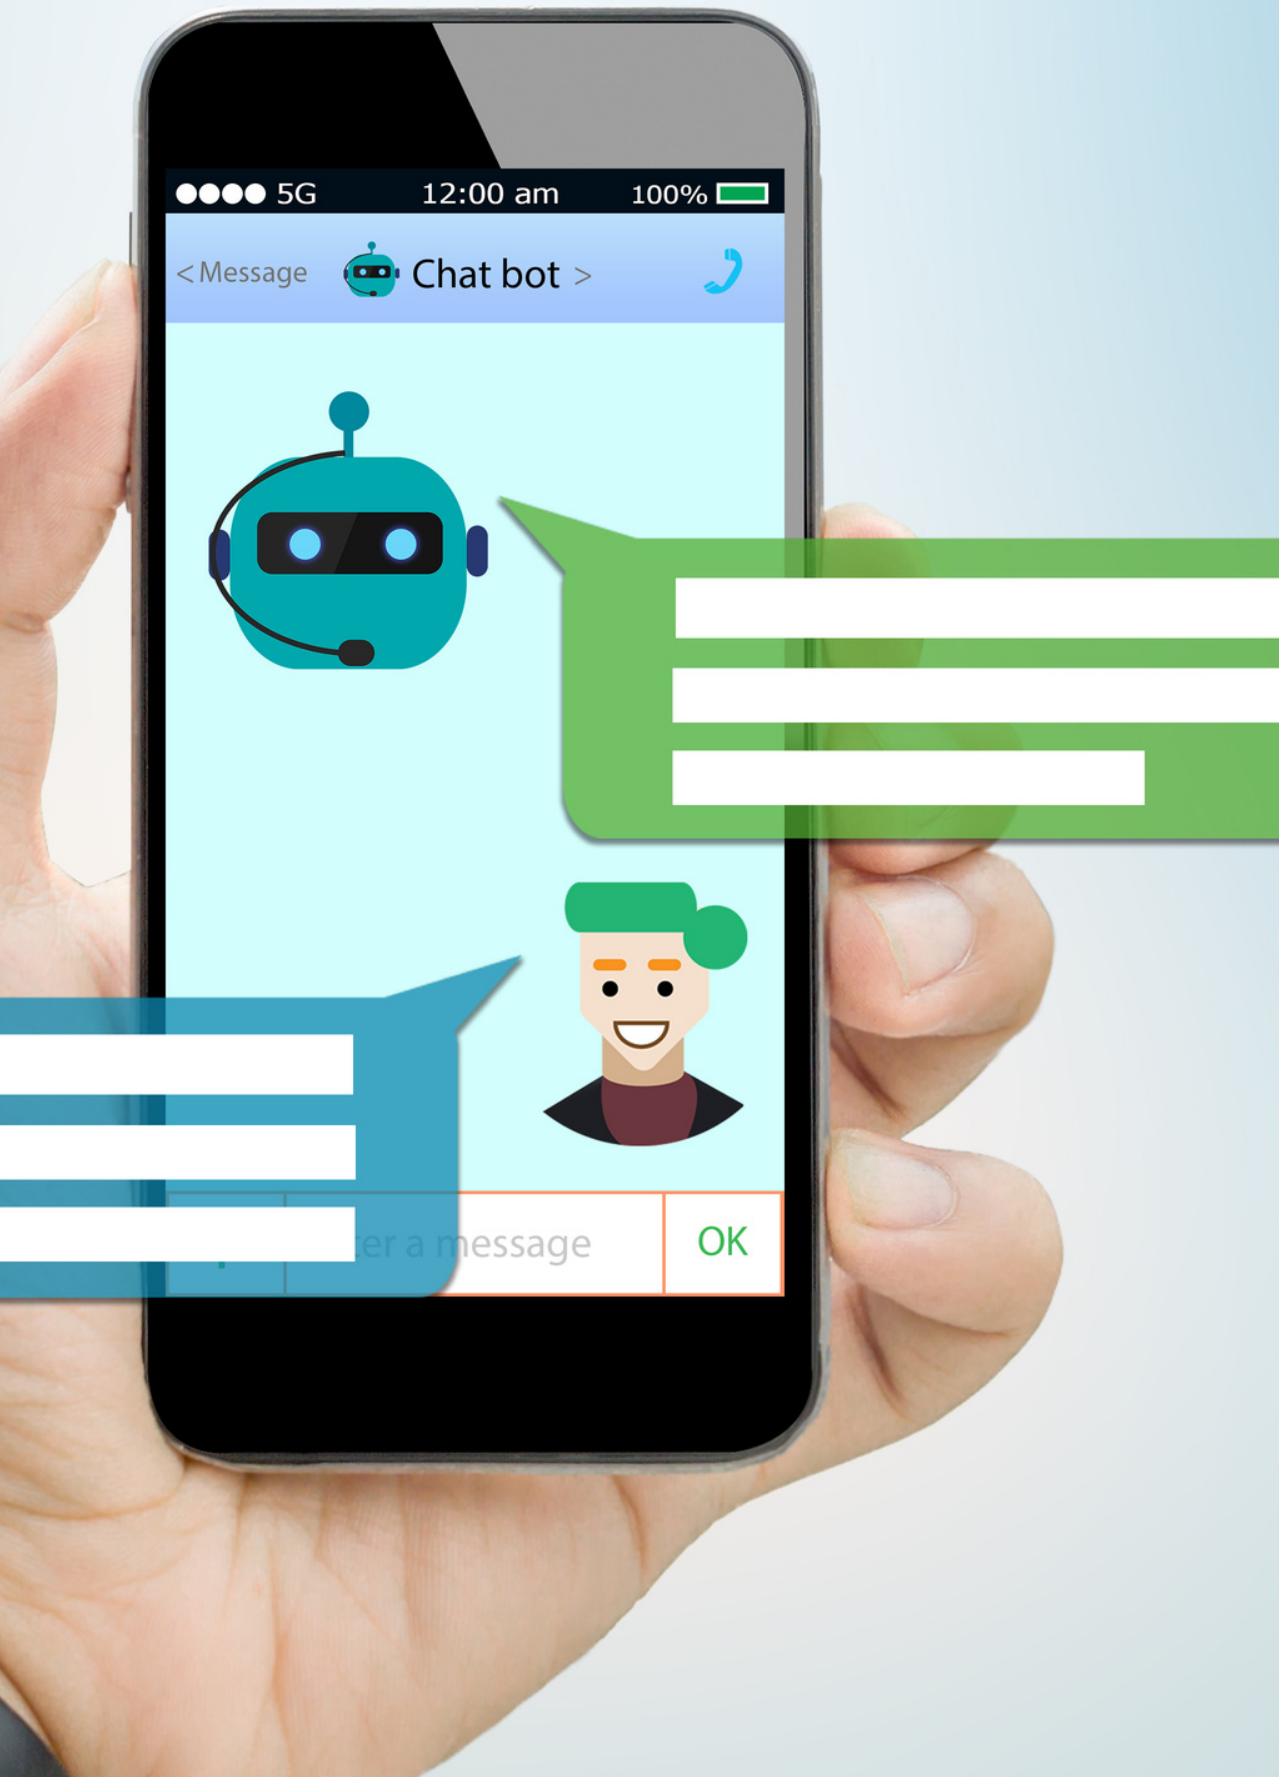

Simulate Role-Play Scenarios

- Goal:
 - Train teachers or students through safe dialogue simulation
- How:
 - Prompt ChatGPT:
 - “You are a nervous student failing math. I’m the teacher. Let’s have a short conversation.”
- Useful for classroom empathy, SEL, and teacher communication practice

Create Culturally Relevant Stories

- Goal:
 - Include local or international cultural elements in lessons
- How:
 - Prompt ChatGPT:
 - "Explain data privacy using a short fable based in Turkish/North Macedonian/Belgian culture."
- Ties StoryLab to intercultural learning and localization

AI to automatically generate stories

- What:
 - Specialized in creating stories
- Tools:
 - StoryWizard.ai
 - MyStorybook.com
 - Storybird AI
 - ...

Multimedia Tools

Image Generators

- Goal:
 - Illustrate story scenes
 - Deeper engagement and accessibility
- Tools:
 - **ChatGPT**
 - **Canva AI**
 - Adobe Firefly
 - Bing Image Creator (DALL-E)
 - Craiyon
 - Leonardo AI

Audio Generators

- Goal:
 - Turn written stories into spoken words
 - Audio elements, podcasts, assisting tools
 - Deeper engagement and accessibility
- Tools:
 - ElevenLabs
 - Murf AI
 - PlayHT
 - Resemble.ai (advanced)
 - Voice cloning
 - Real-time speech-to-speech
 - Audio enhancements

Video Generators

- Goal:
 - Animate, visualize or dramatize a story
 - Way better engagement
- Tools:
 - Pika Labs
 - Short animations
 - Runway ML
 - Video editing + AI Animation + lip-sync
 - Luma Labs Dream Machine
 - Very visual and emotional
 - Text/Image/Video to short, smooth videos
 - Synthesia
 - Canva Animation

Presentations

AI Presentation Tools

- Goal:
 - Animate, visualize or dramatize a story
 - Way better engagement
- Tools:
 - Canva Magic Presentation
 - **Gamma**
 - Tome AI

Interactive Story Creation Tools

- Goal:
 - Click-based paths
 - Gamified stories
- Tools:
 - Genially
 - Twine (Open source)
 - Book Creator
 -
